WHEREAS, the second paragraph of said section provides that any county may pay from its own funds additional sums for the care of any needy child, and the state and county may pay such aid as is needed for the adequate care of the family from the state or county funds; and

WHEREAS, the third paragraph of said section provides that the minimum standards of adequate care shall be determined by the rules and regulations of the State Department of Social Welfare, approved by the State Board of Social Welfare, and that these rules and regulations shall be distributed to the counties and shall be binding upon them;

BE IT RESOLVED by the Board of Supervisors of the County of Yolo that they protest the continuance of this section of the Welfare and Institutions Code and protest the enforcement of the same by the State Department of Social Welfare for the reason that it is arbitrary and conflicting and deprives the county authorities from any judgment or discretion in providing the necessary relief to needy children, and upon the further ground that while the said section undertakes to provide that two-thirds of the support of the child shall be paid by the state it further provides that the maximum to be paid by the state shall be \$15.00 per month and gives the state authorities the power to compel the counties to pay \$22.50 per month for the support of each needy child in the county.

"EXHIBIT A"

This agreement made and entered into as of the 19 day of November 1940, by and between a political subdivision of the State of California County of Yolo hereinafter referred to as "First Party", and the State Relief Administration, an agency of the State of California, hereinafter referred to as the "Administration".

WITNESSETH.

WHEREAS, First Party desires to prosecute certain public work as hereinafter described, and

WHEREAS, First Party represents that such work is for the benefit of the public welfare and is a worthwhile project in every respect, and

WHEREAS, First Party has requested that the Administration assign, on a work relief basis, persons on its relief rolls to perform the work of said project under the supervision of First Party, and

WHEREAS, First Party represents that if such assignment is made the relief workers subject thereto will not replace any regular or part-time workers of First Party and that no operations regularly performed by any department or agency of First Party, or for which funds have been, or usually are, provided in the budget of First Party, will be performed in whole or in part by such relief workers, and

WHEREAS, assignment to such relief work will involve substantially increased costs to the Administration unless First Party make such payments to the Administration as are hereinafter provided; and

WHEREAS, the Administration has agreed to make such assignments and furnish such relief workers to the extent that persons satisfactory to First Party are available on its relief rolls, subject to the conditions hereinafter set forth and to such payments by First Party to the Administration as are hereinafter provided;

NOW, THEREFORE, IT IS AGREED BY AND BETWEEN THE PARTIES HERETO AS FOLLOWS:

1. First Party states that it is a legally constituted political subdivision of the State of California, or a municipal corporation and that it has legal authority to operate and engage in the work and on the property and area herein described and agrees to furnish such evidence of legal authority in connection with the same as the Administration may require.

2. The Administration hereby agrees to assign to First Party, as the same may be needed and to the extent satisfactory persons are available upon its relief rolls, relief workers to perform not more than a total of 160 man-hours of work per day on said project (except that additional man-hours may be provided hereunder by agreement of the parties hereto) for a period commencing on or about the 1st day of December 1940 and ending on the 31st day of March, 1941.

3. The Administration agrees to assign each and all of said relief workers on a work relief basis and to pay said workers the relief budget fixed by the said Administration for each of them, all in accordance with the relief budgets and policies adopted by said Administration as the same may be applicable from time to time to each individual so assigned. It is understood that payment on a work relief basis consists in payment to such worker of his direct relief budget and of such additional payments as are provided for relief workers in the rules and regulations of the Administration.

4. Neither first party nor the administration shall be deemed an employer with respect to the persons, or any of them, assigned for work relief by the administration hereunder or the work relief project herein contemplated. Such persons are working out their relief and as such are not employees of either party and are not entitled to workmen's compensation, medical or hospital benefits or death benefits, or any benefit whatsoever which ordinarily accrues from the relationship of employer and employee under the Labor Code of the State of California.

5. The project to which relief workers shall be assigned hereunder is described as follows (describe the project and purpose thereof):

General labor in Yolo County.

6. The classifications and duties of relief workers assigned hereunder and the hourly rates at which they shall work out their relief are as follows:

Maximum number of man-hours per day (for each work classification)	Work Classification	Rate (by the hour) for working out relief
160 hrs	Common Labor	\$0.45

The wage rate prevailing in the County for the type of work done shall be used to determine the number of hours worked by clients. The Administration shall determine such prevailing rates, and First Party agrees to cooperate and furnish data and information relevant to the same.

It is understood that the duties of the relief workers assigned hereunder are as follows (fill out if nature of duties is not clear from work classification):

7. First Party shall have sole responsibility for the conduct and operation of said project, and shall provide at its own cost and expense all supervision, materials, equipment, service and things necessary to the successful prosecution thereof.

8. Each relief worker, as to all conditions of fitness and ability to perform said work, shall be approved by the head or superintendent (or his duly authorized agent) of the Yolo Co. Board of Supervisors Department or Bureau of First Party, hereinafter referred to as the "Department", and at all times while engaged on said project shall be under the supervision of the Department and particularly of Yolo Co. Board of Supervisors, the head officer or superintendent thereof.

9. First Party shall maintain individual records of all relief workers assigned and referred to First Party hereunder and time sheets showing the time worked by each relief worker assigned hereunder on said project. First Party shall furnish such information and records with respect to the work of relief workers assigned hereunder at such times and in such form as may be required by the Administration, including monthly reports and a final report, within thirty (30) days after the completion or other termination of the project, which will summarize information submitted on the monthly reports and set forth a factual description of the work accomplished by the project.

10. First Party assumes all public liability (to the extent such liability exists) for damage to persons or property arising out of or sustained in any manner in connection with such project.

11. The Administration shall furnish to First Party a complete schedule showing the hours of labor as relief worker on such project permitted or allowed to each relief worker assigned hereunder by the Administration (taking into consideration prevailing wage rates). The Administration shall furnish to and file with the Controller or Auditor of First Party a statement showing the amount to be paid by First Party to said Administration as is hereinafter provided.

12. First Party agrees to pay to said Administration an amount equal to twenty per cent (20%) of the monthly direct relief budget fixed and paid by the Administration to each person assigned to said project as a relief worker for the time that said relief worker served on said project; provided, however, that under no circumstances shall First Party be required to pay to the Administration more than the sum of \$200.00 in any thirty-day period during the term of this agreement, which agreement contemplates the maximum payment by First Party to the Administration not to exceed the sum of \$500.00 during the entire period thereof.

It is agreed that First Party, upon receipt of the monthly statement hereinabove provided, shall pay promptly to said Administration the amounts hereinabove specified for the hours of work performed by relief workers assigned and engaged hereunder.

13. This agreement may be terminated by either party upon thirty (30) days written notice to the other party (provided that the performance of said agreement is in any event subject to the condition that the Administration is able to make assignments hereunder only to the extent that satisfactory persons are available on its relief rolls).

14. The Administration shall be diligent in making assignments hereunder, but in no event shall the Administration or the State of California have any liability of any kind whatsoever in connection with the conduct or operation of said project, or the selection of persons for their duties thereunder, or their transportation to or from or arrival at the project site, or in the event of failure of said Administration to assign a sufficient number of relief workers satisfactory to First Party to act as relief workers on said project, or in connection with any phase of said project. It is intended hereby that to the extent persons on relief rolls satisfactory to and approved by First Party are available for such work in the vicinity of said project and conveniently situated with reference thereto, the Administration shall assign such persons to such project under the supervision of said Department of First Party, and that for each person so furnished and engaged First Party shall pay to the Administration the amounts hereinabove set forth in Paragraph 12.

15. Attached hereto and a part of this agreement are the following documents:

1. Certificate from clerk of First Party, setting for the resolution or other action of the governing body of First Party under which such project has been duly authorized.
2. Certification of proper fiscal officer of First Party that funds of First Party required to carry out project are available and duly encumbered for such purpose.
3. Certificate of attorney of First Party that it has legal authority to accept and perform said contract and project and to expend funds for the purpose therein set forth.

IN WITNESS WHEREOF said parties have caused these presents to be executed by their proper officers thereunto duly authorized and their official seals to be hereunto affixed as of the day and year first above written.

Resolution, Social Security Act.

Supervisor Naismith moved the adoption of the following resolution.

RESOLUTION REQUESTING CONGRESS AND THE STATE LEGISLATURE
TO ADOPT AMENDMENTS TO SOCIAL SECURITY ACT AND WELFARE
AND INSTITUTIONS CODE TO PROVIDE FOR FEDERAL AND STATE
ASSISTANCE.

WHEREAS, Section 2160 (e) of the Welfare and Institutions Code of the State of California excludes from Old Age Security benefits any persons maintained in a public institution; and

WHEREAS, Section 306 of Title 42 of the United States Code, annotated, limits Social Service Old Age benefits to money payments to needy aged individuals; and

WHEREAS, this Board of Supervisors is cognizant of the fact many needy old age persons who are qualified to receive the benefits of the Old Age Security Act are cared for, maintained, and hospitalized in county hospitals at county expense; and

WHEREAS, it appears that said persons, if they were not so maintained in County Hospitals, would be eligible to receive Old Age Security benefits in which payments the State and Federal governments would participate; and

WHEREAS, in view of the large number of said persons who are maintained in said hospitals at county expense, it is indicated to this Board that it would be only equitable that the state and federal governments should sustain a portion of the cost of care and support of said aged persons in county hospitals; and

WHEREAS, official interpretation of the Old Age Security Act by the Attorney General of the State of California has required that all Old Age Recipients are eligible for county hospitalization at county expense by virtue of ^{their} receipt of Old Age Aid and further that for a period of ninety (90) days while such persons are hospitalized at county expense, their Old Age Aid continued payable to them; and

WHEREAS, heretofore, such requirements were not imposed on the county and the county did not have the sole responsibility of payment for the hospital care for Old Age Recipients;

and

WHEREAS, it appears equitable that the state and federal governments should sustain a proportionate share of the cost of maintaining such Old Age Recipients during said ninety (90) day period and also during the period of necessary hospitalization, now therefore,

BE IT RESOLVED, by the Board of Supervisors of the County of Yolo that the Congress of the United States and the Legislature of the State of California be, and they are hereby petitioned to adopt appropriate amendments to the Social Security Act and the Welfare and Institutions Code to provide for federal and state assistance for the care and maintenance of needy or aged persons in county hospitals; and

ARTICLE I CANCELLATION OF PRIOR AGREEMENT

That certain agreement heretofore entered into by and between the County and the Department on November 2, 1940 for the repair and restoration of the Esparto Bridge over Cache Creek is hereby cancelled and superseded by these presents, it being agreed, however, that the sum of Seven Thousand Five Hundred Dollars (\$7,500.00) heretofore made available by the County and the State shall continue available for the performance of the work to be done under this agreement and that said sum shall continue available to pay the cost and expense heretofore incurred under and pursuant to said prior agreement of November 2, 1940,

ARTICLE II DESCRIPTION OF WORK

The work to be performed under this agreement shall be the repair and restoration, as set forth in said Supplemental Report No. A-44a, of the Esparto Bridge over Cache Creek, located in Yolo County, California, approximately one mile north of the town of Esparto, Yolo County, California.

ARTICLE III SURVEYS AND PLANS

The Department shall make the necessary surveys and prepare plans and specifications for the work designated under Article I hereof and said plans and specifications shall be subject to approval by the County; provided, however, that the Department may direct the County to make the necessary surveys and prepare plans and specifications for said work, in which event said plans and specifications shall be subject to approval by the Department and the County's expense in making said surveys and plans and specifications, in such amount as may be allowed by the Department, shall be chargeable against the Thirteen Thousand Dollars (\$13,000.00) available for said work under this agreement.

ARTICLE IV RIGHTS OF WAY

The County shall furnish all necessary rights of way and borrow areas for the work to be performed under this agreement and no expenditure therefor shall be chargeable against the Thirteen Thousand Dollars (\$13,000.00) available for said work under this agreement.

ARTICLE V PERFORMANCE OF WORK

The Department shall do, or cause to be done under its direct supervision, the work provided for in this agreement, in accordance with plans and specifications as provided by the Department and the County.

ARTICLE VI FUNDS

The County, upon execution by it of this agreement, shall forward to the Department for transmission to the State Treasurer for deposit into the "Special Deposit Fund - 1940 Cooperative Flood Damage Repair", the sum of Two Thousand Seven Hundred Fifty Dollars (\$2,750.00) to supplement the sum of \$3,750.00 heretofore furnished by the County, which sums in the aggregate amount of \$6,500.00 represent one-half the estimated total cost of the work provided for under this agreement and are for expenditure by the Department in the performance of said work.

If the Director of Finance, within thirty (30) days after receipt by the Department of said sum from the County, shall not have allocated the additional sum of Two Thousand Seven Hundred Fifty Dollars (\$2,750.00) to the Department for expenditure by the Department in performing said work of repair and restoration in accordance with this agreement, said sum so transmitted by the County, together with the sum of \$3,750.00 heretofore furnished by the County, less the sum of all costs and expenses heretofore incurred under and pursuant to said prior agreement of November 2, 1940, shall be returned upon demand by the County, if such demand is made after the expiration of said thirty (30) days and prior to the making of said allocation.

It is agreed that the expense incurred by the Chief of the Division of Water Resources, also known as the State Engineer, and his staff in making the investigations, estimates, budgets and reports heretofore prepared as required by law and the further expense of the Department and its personnel in performing the duties imposed by law or provided for under this agreement, or heretofore incurred under and pursuant to said prior agreement of November 2, 1940 shall be payable from the Thirteen Thousand Dollars (\$13,000.00) available for said work under this agreement.

The Department shall under no circumstances be obligated to expend for or on account of the work provided for under this agreement, any amount in excess of the sum of Thirteen Thousand Dollars (\$13,000.00), as made available in equal portions by the State and the County.

If funds are exhausted before completion of the work provided for in this agreement the Department may stop such work of repair and restoration and shall not be liable or responsible for the completion thereof.

Upon completion of and final payment for the work provided for in this agreement, the Department shall furnish to the Court a statement of all the expenditures made under this agreement and of all the expenditures made on account of said work from State funds other than those allocated for said work from the appropriation made by said Chapter 1, as amended. One-half of the total amount of all said expenditures shall be deducted from the sum of Six Thousand Five Hundred Dollars (\$6,500.00) advanced by the County for said work and any balance of said sum which may remain shall be returned to the County.

ARTICLE VII CONTINGENT UPON ALLOCATION

(a) The Subdivider shall make proper and adequate provisions for streets, highways, drainage ways and utility easements or alleys.

(b) The Subdivider shall improve, or agree to improve, all land dedicated for streets, highways, public ways and easements as a condition precedent to the acceptance and approval of the map by the Board of Supervisors, and said Board of Supervisors may require the dedication of such streets, highways and public ways as may be deemed necessary for the public use, together with the improvement thereof as herein provided. The Board of Supervisors may also require the dedication of certain roads, streets, highways, and public ways which, in its opinion, are necessary for the future serving of property adjacent to the land being subdivided. Roads, streets, or highways thus required to be dedicated by the Board of Supervisors and which do not serve any lot or parcel of the subdivision which is not already served by other roads or streets of the proposed subdivision need not be improved as hereinafter required. The required improvements shall be in accordance with the "Rules of Improvement of Roads and Streets to be Dedicated" as established by the Board of Supervisors and of record in the minutes of said Board in Resolution form. The resolution showing any rules for improvement may be altered by the Board of Supervisors only by resolution duly recorded in the minutes of said Board.

If the improvement work, as required by said Board, be not completed satisfactorily immediately prior to the acceptance of the final map, and the owner or owners of the Subdivision want the streets accepted, they may enter, as Contractor, into an agreement with said Board whereby in consideration of the acceptance of the offers of dedication by said Board, the Contractor agrees to complete the work within the time specified in the agreement. Said contract must be secured by a good and sufficient surety bond, issued by a company duly and regularly authorized to do a general surety business in the State of California, in a penal sum to be fixed and determined in each instance by the County Planning Commission, but in an amount not in excess of the estimated cost of the improvement, and by its terms made to inure to the County of Yolo; said bond to be conditioned for the faithful performance of said contract.

(c) Streets and alleys shall conform to all master highway plans for the area. Front line setbacks and building lines and utility easements may be required as a condition for waiving street width requirements and provisions for alleys.

(d) There shall be no lots with an area of less than 5000 square feet and each minimum lot shall have a frontage width of approximately 50 feet except where zoned by local ordinance for business use, in which case the minimum area will be 2500 square feet and the frontage width approximately 25 feet.

(e) Durable monuments must be set on all boundary corners and along boundary lines at intervals of approximately one-fourth ($\frac{1}{4}$) mile. Interior monuments will be required on all block corners. The minimum requirements for type of monument shall be a two-inch (2") inside diameter iron pipe or $\frac{3}{4}$ " round or square iron bar, two and one-half feet ($2\frac{1}{2}'$) long and driven at least two (2) feet into the ground. Where monuments are set in paved streets or County highways, they shall be at least six inches (6") below the finished grade of the street, and a cast iron cover flush with the finished grade of the street will be required. Other monuments may be submitted for approval by the County Planning Commission.

(f) Before the final map is completed an accurate and complete boundary survey of the subdivision shall be made by a registered civil engineer or licensed surveyor. A traverse of the exterior boundaries of the tract and of each block, when computed from field measurements of the ground, must close within a limit of error of one foot (1') to five thousand feet (5,000') of perimeter.

(g) Wherever the subdivision is contained within the boundaries of more than one district, for which separate taxes are levied, the boundaries of such districts shall be located accurately and shall be shown accurately on the final map together with dimensions showing the severance of the lot lines, wherever such lines are crossed by said boundaries. If map shows areas, that portion in each district shall be shown.

(h) In the event that the subdivision, or any part thereof, is subject to a special assessment which may be paid in full, the subdivider may, in lieu of such payment file with the Board of Supervisors a good and sufficient bond, in an amount not less than the amount of the assessment, to be approved by said Board of Supervisors. Said bond to be payable to the County as Trustee for the assessment bondholders to secure payment of such special assessments.

Section 4. TENTATIVE MAP. A tentative map shall be considered complete for the consideration of the County Planning Commission when maps or sketches have been submitted, or sheets 18" x 26" in size, drawn to scale of sufficient size to show all details of the plan clearly, and indicating or accompanied by the following data, in addition to any and all requirements as prescribed by law and contained within the provisions of the aforesaid act and all local ordinances enacted pursuant thereto. If the tract is a portion of a larger area which may be subdivided later, the tentative map should indicate the ultimate plan for the whole.

(a) Three (3) copies of such tentative map shall be filed with the Clerk of the Board of Supervisors and if the subdivision, or any part thereof, lies within three miles (3) of the corporate limits of any municipality of this County, two (2) additional copies thereof for such municipality shall be prepared and filed in like manner.

(b) The tentative map shall show clearly:

- (1) Name and address of record owner, subdivider or surveyor.
- (2) Date, north point and scale; and the basis of bearing (true meridian preferably) which will be used on the final map.
- (3) Location, names, and width of adjacent streets, highways, alleys, and ways, together with names of all adjacent subdivisions.
- (4) Contours where topography controls the layout.
- (5) Sufficient data to define the boundaries of the tract, or a legal description of the tract.
- (6) Width and approximate location of all easements for drainage, sewage and public utilities; drainage structures and direction of drainage flow shall be indicated.
- (7) The width and approximate grade of all streets, highways, alleys and other rights of way proposed for dedication.
- (8) The approximate radii of all curves.
- (9) The approximate dimensions of all lots.
- (10) The approximate location of areas subject to inundation of storm water overflow and the location, width, and direction of flow of all water courses.

(c) Accompanying the tentative map shall be statements by the subdivider as follows:

- (1) Statement as to zoning provisions, if any.
- (2) Statement as to intentions of subdivider in regard to improvements to be constructed by him.
- (3) Statement as to front line setbacks and building lines.
- (4) Proposed use of property and proposed source of water supply and sewage disposal.

Section 5. FINAL MAP. A final map shall be considered complete for checking by the County Surveyor when a map or maps have been submitted conforming to the tentative map as approved and to all the requirements as prescribed by law and as contained within the provisions of the aforesaid Act and these Regulations, and other local ordinances passed pursuant to said Act.

(a) The Subdivider shall submit to the County Surveyor the complete set of final maps drawn on tracing cloth of good quality by a registered civil engineer or licensed surveyor.

(b) The boundaries of the tract shall be designated as the final map and all copies by colored border. The border must not obliterate figures or other data. All property within the exterior boundary line and not intended for filing shall be marked, "Not a Part of This Subdivision."

(c) Maps filed for the purpose of showing as acreage land previously subdivided into numbered or lettered lots or parcels shall be conspicuously marked under the title, "The Purpose of This Map is a Reversion to Acreage." "Judgment No. ___ of the Superior Court of Yolo County, State of California."

(d) The title of the final map shall be the name of the subdivision as approved by the Planning Commission and such other descriptive matter as may be necessary.

(e) The width and actual locations of all easements for streets, highways, drainage, sewage and public utilities shall be clearly shown on the map.

(f) The location, nature, and type of all monuments shall be shown on the map. This shall include new monuments set by subdivider in accordance with law, and any existing monuments previously set in any road, street, alley, or way which is a part of the subdivision.

(g) The subdivider shall furnish the County Surveyor traverse sheets showing the mathematical closure, within the allowable limits of error, of the exterior boundary of the tract, together with such other detail maps, traverse sheets and calculations as may be required for accurate checking.

(h) The subdivider shall furnish to the County Recorder a guaranty of title or letter from a competent title company, certifying that the signatures of all persons whose consent is necessary to pass a clear title to the land being subdivided and all acknowledgments thereto appear on the proper certificates and are correctly shown on said map, both as to consents as to the making thereof and affidavits of dedication were necessary. Such guarantee shall be issued for the benefit of the County of Yolo and protection of the Board of Supervisors and shall be continued complete up to the instant of final approval by the Board of Supervisors.

Section 6. If any section, sub-section, paragraph, sub-paragraph, sentence, clause or phrase of this ordinance is for any reason held to be invalid or unconstitutional, such invalidity or unconstitutionality shall not affect the validity or constitutionality of the remaining portions of this ordinance; and this Board of Supervisors does hereby expressly declare that this Ordinance and each section, sub-section, paragraph, sub-paragraph, sentence, clause and phrase thereof would have been adopted irrespective of the fact that any one or more of such section, sub-section, paragraph, sub paragraph, sentence, clause, or phrase be declared invalid or unconstitutional.

Section 7. This Ordinance shall take effect and be in force thirty (30) days from and after its passage, and before the expiration of fifteen (15) days after its passage, shall be published, with the names of the members voting for and against the same, for one week in the Woodland Daily Democrat, a newspaper published in said County of Yolo.

ORDINANCE NO. 176

The Board of Supervisors of the County of Yolo does hereby ordain as follows:

SECTION 1. As used in this ordinance the following words and phrases shall mean:

"Air raid warning signal" shall mean a signal, by siren, whistle, horn or other audible device, of two minutes duration consisting of either a fluctuating or warbling signal of varying pitch or a succession of intermittent blasts of about five seconds duration separated by a silent period of about three seconds.

"All clear signal" shall mean a continuous signal, by siren, horn or other audible device, of two minutes duration at a steady pitch.

"Period of air^{raid}/alarm" shall mean the interval of time between the giving of the air raid warning signal and the giving of the next succeeding all clear signal.

"Blackout structure" shall mean any space so enclosed that any illumination maintained or existing therein is not visible from any point outside such enclosure.

SECTION 2. The Sheriff is hereby authorized and directed to cause the sounding of an air raid warning signal and of an all clear signal when, and only when, the district in which the county is located is notified so to do by the United States Aircraft Warning Service.

SECTION 3. Any person who effects or maintains any illumination, or permits any illumination under his control to be effected or maintained, at any place within the County of Yolo during any period of air raid alarm in the hours of darkness, except within a blackout structure and except in and upon operating equipment and operating facilities of steam and electric railroads subject to jurisdiction of Interstate Commerce Commission, shall be guilty of a misdemeanor.

SECTION 4. The maintenance or leaving of any illumination, except within a blackout structure and except in and upon operating equipment and operating facilities of steam and electric railroads subject to jurisdiction of Interstate Commerce Commission, without provision for its extinguishment, within one minute after the commencement of a period of air raid alarm by a competent person over the age of eighteen years attendant at the place where such illumination is controlled, is hereby prohibited.

SECTION 5. In order to enable the Sheriff to conform to the request of the United States Aircraft Warning Service for the obscuration, diminution or extinguishment of any illumination, whether in or out of doors, which increases the vulnerability of the County of Yolo, or any portion thereof, to air attack, the Sheriff may adopt and promulgate reasonable rules and regulations for such purposes, and any rules or regulations so adopted by him shall be and remain in effect for thirty (30) days thereafter, but no longer, unless approved within said time by resolution of the Board of Supervisors; provided, however, that any rule or regulation so adopted by the Sheriff may at any time be rescinded by resolution of the Board of Supervisors. Violation of any such rule or regulation so adopted and promulgated is hereby declared to be a misdemeanor.

SECTION 6. It shall be unlawful to disobey any lawful direction or order of a peace officer, highway patrolman, or fireman given during a period of air raid alarm, which

order is reasonably necessary for the maintenance of public order or safety or to effect the extinguishment or obscuration of light.

SECTION 7. Any illumination contrary to the provisions of this ordinance, or to any rule or regulation adopted and promulgated in accordance with section 5 hereof, constitutes a public nuisance, and the same may be summarily abated by any peace officer, highway patrolman, or fireman. Any structure may be entered by any peace officer, highway patrolman, or fireman, using reasonable force if necessary, for the purpose of abating such a nuisance by extinguishing such illumination.

SECTION 8. At the commencement of a period of air raid alarm, the operator of any motor vehicle shall forthwith bring such vehicle as far as possible to the side of the street, road or highway off the main traveled portion thereof, and the operator of such motor vehicle, and the operator of any street car, shall bring such motor vehicle or street car to a stop clear of any crossing, intersection, fire house, fire plug, hospital or other emergency depot or area, and during the hours of darkness shall extinguish all lights therein or thereon and said motor vehicle or street car shall remain so situated during the period of air raid alarm, unless directed or ordered to move by a peace officer, highway patrolman, or fireman.

- 6) All vehicles certified by sheriffs, district attorneys, the California State Highway Patrol, police chiefs, and fire chiefs, when within the respective territorial jurisdictions of the certifying office, as being essential to the preservation of the public peace and safety or to the dissemination of public information or to the national defense; provided, however, that such vehicles shall conform to the uniform lighting regulations approved by the Department of Motor Vehicles and the California State Highway Patrol for blackout emergency vehicles. No certificate shall be issued which conflicts with any regulation or order of the United States Army applicable in the area for which the certificate is issued.

SECTION 10. The provisions of this ordinance shall not apply to operating equipment and operating facilities of steam and electric railroads subject to jurisdiction of the Interstate Commerce Commission.

SECTION 12. Any person who shall operate a siren, whistle or other audible device in such a manner as to simulate an air raid warning signal or an all clear signal, except upon order of the Sheriff, or other proper authority, shall be guilty of a misdemeanor.

SECTION 13. The provisions of every ordinance of this county and every administrative order made pursuant thereto, requiring any illumination to be maintained in conflict with this ordinance or with any rule or regulation made pursuant to section 5 of this ordinance, shall be deemed suspended during the period between any air raid warning signal and the next succeeding all clear signal.

SECTION 14. Any person who shall violate any provision of this ordinance shall be guilty of a misdemeanor and, upon conviction thereof, shall be punished by a fine of not exceeding three hundred dollars or by imprisonment in the County Jail not exceeding three months, or by both such fine and imprisonment.

SECTION 15. This ordinance is required for the immediate preservation of the public peace, health and safety, and the following is the statement of facts constituting such urgency: The United States is at war and this county is in great and continuing danger of air and other attack by the enemy.

SECTION 16. If any provision of this ordinance or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of this ordinance which can be given effect without the invalid provision or application, and to this end the provisions of this ordinance are declared to be severable.

SECTION 17. Ordinance No. 174 of Yolo County is hereby repealed.

SECTION 18. This ordinance shall be published for one week before the expiration of fifteen days after its passage in the Woodland Daily Democrat, a newspaper published in the County of Yolo, and shall take effect immediately upon its publication.

2. Pursuant to the determination and statement of military necessity in Paragraph 1 hereof, a Zone of Restricted Lighting, as particularly described in Exhibit A hereof, and as generally shown on the map made a part hereof and marked Exhibit B, is hereby designated and established. Illumination Within the entire area of said Zone of Restricted Lighting shall be extinguished or controlled at all times at night from sunset to sunrise, as follows:
